Principal's Corner

It's the beginning of the third term and we start it off with good news and celebrations.

Our boys have continued to succeed in a myriad of extra curricular activities that they have participated in.

For the next 12 weeks as we go through this important term, let's proceed with determination, strive with purpose and continue to recognize and remember the words 'I have greatness in me'. Let's keep in mind positive changes will lead to positive results and success.
