(Forms 1,2,3)

Exams begin on Monday 25th
November 2024

LEARNING BEYOND THE CLASSROOM: LET'S DISCOVER, EXPLORE AND LEARN!

The month of October was jam packed with field trips. There was always somewhere to go and something to learn. Various groups of students went to different events to boost their understanding on multiple topics and have a little fun outside of the classroom. Many students had something to say about their experience.

On October 8th, 2024 us students had the incredible, opportunity to visit Her Excellency the President's House! From exploring the charming college and presidential garage to strolling through the beautiful gardens and even getting a glimpse inside her office/home, it was an unforgettable experience.
-Deshawn Mikhail (Form 5)

THE PRESIDENT'S HOUSE

"This visit gave us a unique look into history and a view of the daily life at the official residence of Trinidad and Tobago's Head of State."

-Deshawn Mikhail

At approximately 8:30 am, 10 students of St. Anthony's College went to Cipriani College for an energy forum. The experience was very informative as we learned about the effects of climate change, such as, if the ice sheets continue to melt the sea levels will rise and by 2050 we will have lost 34% of the volume of ice. We also learned about green hydrogen and how it can be beneficial to our environment as it uses electrolysis of water with electricity by using renewable energy. There were members of the United Nations attending, as well as other respected members of the society. They also talked about Just transitions and how no one is left behind in the transition to low carbon and pathways to achieve zero poverty and zero carbon.

Saleem Mohammed - (form 6)

“Travel is still the most intense mode of learning.” - Kevin Kelly

The form 3's were also able to go out on their own field trip. They were able to visit the Piarco International Airport for an Aviation Tour. Here's what Christian Pierre said about the experience.

"On Wednesday, 30th, October 2025, the entirety of the Form 3s went to Piarco Airport for an educational field trip. We experienced the VIP lounge where presidents and ministers sit for meetings."

"We learned there are many different types of planes, and the estimated time from Trinidad to Tobago is 30 minutes. We went through airport security where you had to take off your shoes to pass through the scanner. Piarco Airport has a fire service, health service, etc. A plane can't take off as long as there is something or someone dangerous that can hurt citizens onboard the plane. We enjoyed the field trip very much and can't wait for the next one".

Showing of Twelfth Night

Milwaz Productions thrilled an audience of Secondary school students on October 15th and 16th at Queen's Hall, St. Ann's. Two of Shakespeare's plays, "Twelfth Night" and 'Othello' came to life for the company's 2024 Shakespeare Festival. In the auditorium sat twenty-one excited St Anthony's students from forms four, five and six. "This is their first experience seeing a play live. really want them to love it," one teacher shared.

The lights dimmed and the stage burst into colour and movement as the company's comedic envisioning of Shakespeare's romance "Twelfth Night" unfolded. Peals of laughter punctuated the performance. Teachers and students found the experience to be educational and enjoyable and look forward to other opportunities to build their love of literature.

Ms. Scott

"IS ANIMATION FOR YOU?"

On Friday, 1st November 2024, the Form 5 IT class went on a field trip to UTT for a Digital Media Forum. The experience was a lot of fun, meeting different animation studios, music technology, and green screen technology. I hope another field trip like this will happen.
- Mekhi Eligon-Belfon (Form 5)

This is what one of the students had to say about this Digital Media Forum they attended. Students enjoy learning much more as they get to go out and see, touch, and interact with the world and the things they are passionate about.

“Hard work beats talent when talent doesn’t work hard.”

The St. Anthony’s Tigers have been busy this term with various games and we have to say a loud and proud CONGRATULATIONS to the boys who played so well they were able to carry the St. Anthony's Tigers out of the Premiership and into the Quater Finals of the Coca Cola Football Boys Intercol.

Extra! Extra! Read All About It.

St. Anthony’s own Jaeden Bobb has become an entrepreneur. Jaeden has created his own custom jibbits for Crocs. He shows a love for his country with these jibbits, which read “Trini to de bone” and “100% Trinidadian”. Jaeden was interviewed by Newsday about why he created these and said “I wanted charms for my Crocs with TT culture. But I could only find flags for other countries, so I asked my mother for guidance, and she asked why I didn't start designing my own. Without really knowing how, I started on this journey.”

Congratulations Jaeden
May you continue to explore your new passion and keep sharing the Trinidad and Tobago pride.
